DETAILED ACTION

Reasons for Allowance

Claims 1 and 12 are allowed. The following is an examiner's statement of reasons for allowance:

The applicant's argument (dated 19 September 2005) was persuasive. Claims 1 and 12 are drawn to an optical phase measurement device and a method of using the same. The Paldus and the Hill references previously presented by the examiner combine to teach many aspects of the optical phase measurement device as claimed, but they do not disclose a delay between the polarizations of two lightwaves that induces or provides a frequency offset between the lightwaves as the wavelength of the lightwaves are tuned over a range. In comparison, Paldus uses a frequency shifter that shifts a mean frequency. Although Szafraniec (U.S. Patent 6,801,320 patented Oct. 5, 2004) teaches using a delay that results in a frequency shift, 35 U.S.C. 103 (c) precludes the use of the Szafraniec reference as part of an obviousness rejection. It is the examiner's opinion that the prior art of record, taken alone or in combination, fails to disclose or render obvious a delay that induces a frequency offset between the polarizations of two lightwaves as the wavelength of the lightwaves are tuned over a range, in combination with the rest of the limitations of the base claim.

Claims 2-10 and 13-20 are allowed as dependent claims of allowed claims 1 and 12.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
